

I have been advised that you plan to give LPFM priority over current FM translator services. I ask that you not do this, as it would eliminate the one station my family listens to on the radio, KLOVE. As grandparents, we are raising our 12 year old ADHD, Narcissistic grand daughter. She loves the christian music and teachings on this station. If it leaves the air, we will be left to monitor everything else she will be subjected to. As it is, most of what is on radio and TV is pure trash, with foul language; explicit sexual scenes and the wrong values portrayed. This is unacceptable. If we are to ever bring our grand daughter out of her situation, we need the positive, christian values given on KLOVE FM radio. Thank you.
